

Dear Parents and Carers,

The past few months have been unprecedented in dealing with the pandemic that has affected all areas of modern life. As you are aware, as a school community we continue to be impacted by Covid 19 and I thank you for your support in our attempts to continue to minimise the risk of the virus. Our safety controls that we have in place in school are risk assessed and continually updated.

Central government has identified Liverpool to pilot a new Covid 19 testing system. This is being called the Lateral Flow System. Sites across the city are due to be positioned in order to carry out the testing and we have been identified as a site to support our school. Results from the tests will be available approximately 30 minutes after the test is conducted.

We can expect immediate disruption as to how schools will function once the testing starts and the results will have operational implications. Schools will be affected differently and subsequently will need to respond on an individual basis.

Your understanding and support at this very difficult time is much appreciated.

Yours sincerely,

D Gidman  
Headteacher
