Re: HPV Vaccinations

Dear parents/carers,

We hope this letter finds you and your family well.

School closures during the COVID pandemic forced school based immunisations sessions to be suspended however we are working with our immunisation service to ensure our school population can still be protected against important vaccine preventable diseases.

Year 8 parents/carers your son/daughter is now due their HPV vaccination and you may or may not have returned a consent form.

If you haven't yet returned your form to school you may receive a call from a member of the immunisation team to ask if you would like you son/daughter vaccinated, they will then confirm your child's identity with you and ask a series of health questions and take your verbal consent, or decline from this campaign this will ensure once we have agreed a date for delivery of vaccinations with school your child will be vaccinated and protected against HPV related cancers

Further information regarding HPV can be found at www.nhs.uk/hpv

If you require further advice, please do not hesitate to contact the Immunisation Team: Tel No 0151 295 3833

Yours sincerely,

School aged immunisation team

Chairman Beatrice Fraenkel

Chief Executive Joe Rafferty
