

14th July 2022

Dear Parent/Carer

We would like to thank you for your continued support in helping your child through their GCSE AQA Combined Science course this year. Having just completed our first set of mock examinations we have reviewed our revision resources and would like to share what is available.

As you are aware your child was provided with a CGP revision guide at the start of Year 10. This is generally used to support homework and preparation for assessments.

This year we will be making other resources available to buy through ParentPay. Ordering through school allows us to offer them at a discounted price from the RRP.

- The CGP Knowledge Organiser & Retriever Bundle will be available at a price of £7 and
- Revision cards available for £8.50.

If you wish to purchase either of these, please order through ParentPay by the 12th September. The order form will be available from today. Please contact the school if you are in financial hardship as funding can be made available to assist.

Your child will be set regular science homework on Educake, to help support them throughout their final year. They will also be given flipped learning tasks to complete to help prepare them for each upcoming lesson. We have also enclosed a set of recall questions, for your child to practise over the summer, giving them the best possible start to Year 11.

We look forward to starting the autumn term and working alongside you to support your child in achieving their best in the summer 2023 exam series.

Yours sincerely

J Houghton
