

26th March 2026

Dear Parents and Carers,

Following the Easter break, Year 10 students will begin a series of assessments in Maths, English and Science. These assessments are designed to support your daughter's progress and to prepare her thoroughly for the full mock examination series later in the academic year.

These assessments will allow teachers to identify strengths as well as areas where further development is needed across these core subjects. This will help us to provide targeted support and ensure that every student is well prepared moving forward.

As part of this preparation, some assessments will take place in the Teaching School Hall under formal exam conditions. This is an important opportunity for students to become familiar with examination routines, expectations, and the environment they will experience during their mock exams. It will also help them to develop confidence, time management skills, and exam techniques.

	P1/2	P3/4
Tuesday 14th April	Maths P1	Biol
Wednesday 15th April	Maths P2	Chem
Thursday 16th April	English	Phys

To support revision, detailed revision materials for Maths, English and Science are available for your daughter on Class Charts. We strongly encourage students to access these resources over the Easter holiday, using them to review key content, practise exam-style questions, and consolidate their understanding.

We also recommend that students establish a regular revision routine over the break, balancing study time with rest, to ensure they return feeling confident and prepared.

If you have any questions or would like further guidance on how to support your daughter during this time, please do not hesitate to get in touch.

Thank you for your continued support.

Yours sincerely,

J Sullivan

Mrs Jayne Sullivan
