National Pupil Database

We are required to provide information about pupils to the Department for Education as part of statutory data collections such as the school census.

Some of this information is then stored in the National Pupil Database (NPD), which is owned and managed by the Department and provides evidence on school performance to inform research.

The database is held electronically so it can easily be turned into statistics. The information is securely collected from a range of sources including schools, local authorities and examination boards.

The Department for Education may share information from the NPD with other organisations which promote children's education or wellbeing in England. Such organisations must agree to strict terms and conditions about how they will use the data.

Youth support services

Once our pupils reach the age of 13, we are legally required to pass on certain information about them to our local authority or youth support services provider, as it has legal responsibilities regarding the education or training of 13-19 year olds.

This information enables it to provide youth support services, post-16 education and training services, and careers advisers.

Parents/carers, or pupils once aged 16 or over, can contact our DPO to request that we only pass the individual's name, address and date of birth to our local authority or youth support services provider.

Where we transfer personal data to a country or territory outside the European Economic Area, we will do so in accordance with GDPR.
