How have you/your school previously supported another school?	I have previously supported other schools and RE departments by working alongside them to help improve their outcomes through helping them develop their department organisation, knowledge of the new curriculum, teaching and learning strategies, memory and thinking skills and revision techniques for GCSE students.
What was the specific impact of your support?	Outcomes in departments that I have previously worked with improved due to various forms of intervention that we put in place resulting in an increase in outcomes of Summer '18 results. I believe the wellbeing and motivation of staff increased due to my support also as well as knowledge and understanding of curriculum reform and 9-1 assessments. Teaching and learning was also improved through the delivery of P4C and Critical Skills as well as greater awareness and competency in planning and delivering mindfulness sessions to enhance student's wellbeing.
