<b>How have you/your school previously supported another school?</b>	<p>I have recently founded the “Science Leadership Team” via Twitter. This is a platform aimed at supporting Science Leaders at all levels across the country and has attracted hundreds of followers in the very early stages of the project - <a href="https://twitter.com/ScienceLTEAM">https://twitter.com/ScienceLTEAM</a></p> <p>I have done a lot of work supporting colleagues with the sequencing of their curriculum. You can read about my departments work on sequencing here -</p>

	<p><a href="https://digteaching.wordpress.com/tag/curriculum/">https://digteaching.wordpress.com/tag/curriculum/</a> . During the lockdown I supported the CPL of Science teaching staff via PiXL and Seneca. You can view my talk for Seneca at their National Science Conference here - <a href="https://www.youtube.com/watch?v=pEAzzlpCjoA">https://www.youtube.com/watch?v=pEAzzlpCjoA</a> which elaborates on my work on Curriculum Sequencing.</p> <p>Over the last 18 months have also led whole school on the writing and implementation of my school's new research informed feedback policy which has had a positive impact on pupil efficacy and staff workload. This has allowed me to complete my NPQSL in this area.</p>
<b>What was the specific Impact of your support?</b>	<p>My schools new feedback policy has led to a decrease in teacher workload and an increase in effective feedback across the school. It has also empowered heads of Faculty to use feedback methods that are most effective in their areas without being constrained to a fixed rota of marking.</p>
